(T1) Threads of
any color

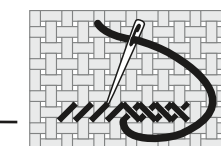

■ Cotton stranded
threads (25 m)

■ wool/acrylic
yarn Safil
(103 m)

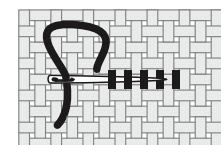

(T2)

(T3)

(T4)

**fabric for
embroidery
Aida 14 of
any color**

Please read the manual to avoid mistakes!

- First it is advisable to find the center of the canvas **(T2)**. Combine it with the design center, shown by arrows on the chart.
- The work is made with 3-strand cross-stitch of cotton stranded threads and 2-strand cross-stitch of wool/acrylic yarn Safil **(T1)**.
- Cotton stranded threads consist of 6 thin threads, which you have to detach from moulin lea. A wool/acrylic thread is one and indivisible.
- The work will look good if all upper stitches are inclined in one direction **(T3)**.
- Try to avoid making knots. At the beginning fasten off your thread by doing several stitches over the fabric that afterwards will be hidden by the embroidery. In following put the thread end under the stitches on the reverse side to fasten it off **(T4)**.
- Iron the wrong side of the finished embroidery.
- Fringe the napkin edges by pulling off the outmost fabric threads.
- The repeating part of the design is shown in light blue.
